grenadier ash urn

Sense of Place

We believe in the power of design and its ability to elevate public spaces. Landscape Forms provides great design, integrated product collections, and leading edge technology for creating a sense of place in outdoor environments.

Grenadier Specifications

Grenadier is constructed of cast and extruded aluminum. Available as a wall mount, freestanding or removable unit. Removable option recommended in unprotected areas. The cast base is welded to the support post on freestanding/removable ash urns. The wall mount and removable plate assemblies are made of stainless steel. Pin bracket key opens top for emptying; unlocks unit from wall mount bracket or removable bracket. The freestanding/removable models have a capacity of 1¾ gallons, while the wall mount capacity is ½ gallon.

Finishes

All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling, and fading. Call for standard color chart.

To Specify

Specify freestanding, removable or wall mount ash urn. Choose powdercoat color. Pin key comes standard with all models.

Ash urns should be discreet. Grenadier proves they can also be distinctive.

The Grenadier ash urn from Landscape Forms is simple in design, trim in appearance, and efficient in function. Grenadier stands at attention in highly visible places but integrates seamlessly with commonly used architectural elements and materials so it doesn't call attention to itself. Its fully enclosed housing extinguishes and hides unsightly litter and eliminates cigarette odor.

Metal is the world's most recycled material and is fully recyclable. Powdercoat finish on metal parts contains no heavy metals, is HAPS-free and has extremely low VOCs. Consult our website for recycled content for this product.

Landscape Forms is proud to specify FSC and Green-e certified paper. This paper meets the Forest Stewardship Council's standards for responsible forest management and is made using certified renewable energy.
