

JULES ET JIM

Product Data Sheet

Jules et Jim are versatile ultra-high-performance concrete planters with bases that form a bench. Jim and Jules can live as separate elements or in harmony as complementary forms. The planter-benches rest on paving with no need for anchors. Drainage in the planters is carried through an opening hidden in the base; no other drainage is needed. Both planters have a volume capacity of 2400 liters and are suitable for planting species of an average height.

Planter

- Jules et Jim are versatile planters, that share the same base.
- The planters have a seating element on the perimeter.
- Jules 80cm is a shorter and more open planter.
- Jim 140cm is a taller planter with a narrower opening.
- Capacity: Jules – 535 Gal. | Jim – 540 Gal.
- Planters are made of UHPC Slimconcrete® that is etched and waterproofed (see below for further details).
- Two superimposed pieces of UHPC concrete are inserted into each together.
- Drain hole is hidden in base, with a diameter of 36cm.
- Planters are freestanding.

Material

- Slimconcrete® is the trademarked name used by Escofet for its ultra-high performance cast stone, a recipe in which the aggregate contains reinforcing elements such as fiberglass, PVC (polyvinyl chloride), or PVA (polyvinyl alcohol.)
- Slimconcrete® is a highly engineered material that enables casting of lighter weight, thin-profile forms with exceptional strength and high resistance to compression, bending, impact and wear.
- It has spurred experimentation with form and the creation of cast concrete products with novel structural and aesthetic qualities.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is pre-determined by the formulation used in its manufacture.
- Slimconcrete® products do not require any specific maintenance during their estimated lifespan of more than 30 years.
- Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.

	STYLE	DEPTH	LEGHTH	HEIGHT	PRODUCT WEIGHT
	Jules 80cm	88"	81"	32"	2,476 lb
	jim 140cm	88"	81"	55"	3,007 lb

JULES ET JIM

Product Data Sheet

Product Warranty

- ESCOFET warrants the durability of its product to Landscape Forms for a period of five (5) years from the date of invoice.
- The warranty covers the repair or replacement of the product or components at no charge.
- Notwithstanding, this warranty does not cover damages to ESCOFET products resulting from unloading; handling; installation; abuse; exposure to paint, liquids or corrosives; or any other damage not attributable to ESCOFET.
- The warranty shall also be void if ESCOFET products are tampered with, handled, removed or modified by persons not authorized by ESCOFET; or if the product has not been properly maintained by the customer.

To Specify

- To order planter, select Jules or Jim and standard color.
- Planters are freestanding.
- See materials/color sheet for Escofet's standard color options.
