Product Data Sheet

Niu Oval acts like a giant water lily, providing a modest oasis that contrasts the hardness of urban environments. The formal simplicity of Niu's ring of cast stone is versatile, serving as a large-format planter, resting place, sand or grass container, or tree surround.

Planter

- Niu Oval is a versatile planter with a bench element.
- The Niu Oval planter is made of reinforced cast stone, with an etched waterproof finish.
- Units are freestanding.
- Planter ships as two separate pieces.

Material

- Reinforced Cast Stone is cast stone that is poured and cast over a stainless steel bar cage built to fit within the walls of the mold.
- Reinforced Cast Stone makes it possible to cast thinner, irregularly shaped forms while retaining appropriate strength.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is predetermined by the formulation used in its manufacture.
- Cast stone products do not require any specific maintenance during their estimated lifespan of more than 30 years. Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.
