

## Product Data Sheet

A contemporary nod to vernacular architecture, Peak is an abstracted expression of home. Designed by Scott Klinker, Peak incorporates both modern and traditional architectural language — the gabled shade is familiar and inviting while the clean lines and elegant silhouette offer a distinct sense of modernity. The duality of this design allows Peak to complement a variety of different aesthetic attitudes and integrate seamlessly into a range of landscapes, offering landscape architects a new way to express their unique visions.

### General Description

- Peak is constructed from cast and extruded aluminum
- Available with solid or perforated panels
- Peak is rotationally adjustable
- Base or surface-mount table required

### Mounting Options

- When used with a Landscape Forms table, Peak must be mounted to the table, which in turn must be mounted to, or embedded in, a hard surface.
- If used with a table other than those offered by Landscape Forms, Peak must be anchored to our surface-mounted stand.
- Peak may also be used without a table, but must be secured in our surface-mounted stand.

### Finishes

- All metal parts are finished with Landscape Forms' exclusive Pangard II® polyester powdercoat — a hard, yet flexible, finishing process that resists rusting, chipping, peeling and fading.

### To Specify

- Select perforated or solid panels, and powdercoat color(s).
- Specify to mount in Landscape Forms surface mount or embedded table.
- Specify surface mount stand if using with table other than those supplied by Landscape Forms, or if used without a table.
- Specify color for stand.

Peak	Width	Depth	Height	Weight
	86.25 in	89.25 in	83 in	121 lbs
